Summary

I am an ambitious frontend developer with a keen eye for detail, strong analytical skills, and experience leading teams. I am career-driven and results-oriented, always striving to ensure my work has a real impact and is widely utilized.

Experience

Yolk Studio

February 2025 - Present

Front-end developer

Prague, Czechia

Built responsive websites featuring engaging 3D animations, multilingual server-side translations, and seamless cross-browser compatibility.

Key skills: *Next.js, React, GraphQL, TypeScript, TailwindCSS.*

Česká spořitelna – Contractor

November 2024 - February 2025

Web-app developer

Prague, Czechia

Designed and developed frontend solutions for banking processes at Česká spořitelna. Using TypeScript, I translated complex requirements into functional and scalable systems.

Key skills: *TypeScript | Analytical thinking | Bank processes*

ka.soft

June - November 2024

Front-end developer

Prague, Czechia

Designed and developed custom web applications, creating intuitive UX/UI designs, writing responsive, performance-optimized frontend code.

Managed the full development lifecycle to deliver scalable, user-focused solutions on time.

Key skills: *React, TypeScript, Vite, REST*

Education

Unicorn University

September 2023 - Present

Software development

Bachelor's degree
